OK, no rush! I know our workloads have increased significantly lately. Just wanted to check on you and let you know I haven't forgotten about this. I'm free between 2-4 today.

Take care!

Hi Darlene,

Sorry, I haven't submitted the information yet. I've been swamped with enforcement related items. I will get you something by the end of the week. Hopefully, that will work for you. I will also give you a call to discuss before preparing this afternoon. Please let me know your availability. Thanks again.

Rochelle

Good morning Rochelle,

Hope you are well. And Jim, I hope you're feeling better.

I wanted to check-in with you to see if you need any help with the email I outlined below. I recognize this is a group you don't interact with regularly, so I want to do whatever I can to help get this request out to them and get some responses to you. If you'd like to give me a call, feel free to do so, or reply to this email. I'm here to help.

Darlene

Hi Rochelle!

Ex. 5 Deliberative Process (DP)

Feel free to give me a call if you have any questions.

Enjoy the rest of your week!

Darlene

Hi Surabhi,

Great! Looking forward to your response.

Thanks,
Rochelle

Thank you for this succinct description, Rochelle! Darlene and I discussed how valuable it was to receive this description from you.

We apologize that our thoughtfulness did result in a delay in getting back to you. We were inspired by your note and had quite a few thoughts on how to help ensure you get valuable response, through this response and in follow up. We will share that Monday.

Sound okay?

Very respectfully,
Surabhi

This email is to request assistance from CDS staff for the City of East St. Louis on public health and environmental issues/concerns from the City ad community. I would like to know if any other Regions have assisted a community or had challenges in the below areas. Any assistance you can provide will be appreciated.

1. Educate residents and conduct indoor air quality assessments for asthma triggers in the home, childcare facilities and/or schools
2. Flooding, sewage and standing water issues in the community and homes/mold remediation
3. Lead paint abatement
4. Vacant, deteriorated, unsafe structures in need of demolition
5. Port initiative

Thank you,

*Rochelle A. Marceillars
